Empowered for the 21st Century.[®]

THE GRAND VISION

Now a nationwide leader in technology education, Giant Campus started small, with one computer camp for 125 kids at the University of Washington in the summer of 1997. That first program was the initial phase of an ambitious business plan created by founder and CEO Pete Findley, a UW graduate. Combining his love of technology and enthusiasm for teaching kids, Findley's grand vision earned him UW's Entrepreneur of the Year for 1997, and started his quest to redefine online education and offer entertaining and engaging technology training that kids couldn't find anywhere else.

EXPANDING OUR REACH

In 2001, as greater educational opportunities were discovered and new partnerships forged, Cybercamps came under the big-tent concept of Giant Campus, and the company's clients grew to include school districts, corporations, and the U.S. military. Today, nearly 50,000 kids have participated in Cybercamps over the past decade at dozens of prestigious colleges and universities across the country and in several countries abroad including China, Japan, South Korea, and Saudi Arabia. And our revolutionary approach to learning doesn't stop with young people - Giant Campus now teaches tens of thousands of adults each year using much of the same research-proven methodology.

EMPOWERING PEOPLE

From a school in Virginia to a Naval base in Hawaii, our customers range from a 10-year-old with dreams of becoming the next Bill Gates, to a grandmother learning to use a computer for the first time. Through our cutting-edge programs and commitment to constant innovation, Giant Campus empowers people with the 21st century skills necessary to thrive in a technologically-driven global community.

Giant Campus is a four-time honoree of Washington CEO magazine's Best Companies to Work For award, winning top honors in 2000 and finishing in the top 10 for 2004, 2005, and 2006. We are also the winner of Homestreet Bank's Small Business Spotlight Award for 2006, CEO Pete Findley was a finalist in the Ernst and Young's Entrepreneur of the Year program for 2007, and winner in 2008. Giant Campus was also ranked within the Deloitte and Touche Technology Fast 50 for Washington State in 2006 and 2007.

OUR TEAMS

The company now employs more than 60 people in sales, content development, graphic design, Web development, operations and management teams. Giant Campus has offices in Austin, TX., Tampa, Fla., Tacoma, Wash., Las Vegas, and San Diego. Our corporate office is located in Seattle.
